// PROFILE

Computer Science undergraduate at NOUN and frontend developer who completed the Federal Government's 3MTT Software Development programme (Sept 2026). I build responsive web apps with JavaScript, HTML/CSS and Git/GitHub, backed by hands-on experience in IT support, networking, device repair and hospital app rollout support. Now growing into cybersecurity through DTA and Coursera.

// WORK EXPERIENCE

App Rollout & Support Team — Sept 2026

KMC Hospital App · KMC Hospital, Nigeria

- Supported the rollout of the KMC hospital app, helping staff get set up and adopt the new system in day-to-day hospital workflows.
- Provided first-line technical support: logged, triaged and resolved user issues, escalating complex faults to the development team.
- Guided staff through app features and collected user feedback to improve usability and smooth the transition.
- Documented recurring issues and fixes to speed up future resolution and onboarding.

Freelance Tech Assistant — Jan 2023 – Present

Self-employed · Nigeria

- Delivered smartphone setup, WhatsApp data migration and troubleshooting for over 50 clients, ensuring seamless device functionality.
- Resolved hardware-level faults including microphone failures, connectivity drops and performance degradation.
- Built a repeat client base through fast turnaround and clear technical communication.

IT Support (Part-Time) — Jan 2021 – Present

Local Business / Cyber Café · Nigeria

- Troubleshot and resolved hardware and software faults on 50+ computers and mobile devices daily, minimising disruption.
- Set up and maintained small office networks for consistent uptime, and configured software and end-user support for internet and system issues.
- Installed and configured Windows and Linux operating systems on 50+ laptops.

Volunteer – Timekeeping & Presentation Support — 6–9 May 2025

International Conference on Smart Education and Digital Literacy (ICSE 2025) · UBEC Digital Resource Center

- Ran the on-stage timer so presenters stayed within their time slots, and projected slides to keep sessions running smoothly.

Broilnest Ventures — Sept 2025

Registered farming business · Abuja, FCT

- Registered the business name with the Corporate Affairs Commission on 1 September 2025, after completing the IITA YAS agribusiness programme.

// PROJECTS

Soft-6 – AI Interview Prep & Talent Assessment Platform — 3MTT team project

HTML, CSS, JavaScript, Chart.js, Git/GitHub

- Built frontend features: authentication UI with inline validation and toast notifications, sidebar navigation and a profile settings page.
- Built a performance dashboard with Chart.js (stat cards, bar and radar charts); worked in feature branches and pull requests on a shared team repository.

Sales & Expense Ledger App — 3MTT project

Vanilla JavaScript, Node.js/Express, Supabase (Postgres)

- Records multi-item sales with automatic totals and tracks expenses, with a dashboard of total sales, expenses and net profit.
- Backend deployed on Render with a Supabase database and email OTP sign-up.

Small-Scale 5-Device LAN Setup — Feb 2023

School project

- Set up a small LAN of five devices, crimping Cat5e/Cat6 straight-through and crossover cables and testing the connections.

Personal Solar Panel Setup — Ongoing

- Installed a personal solar setup with exposure to low-voltage load management.

GSM Device Diagnostic & Repair Practice — Mar 2021

- Practised diagnosing and repairing basic faults on GSM devices.

Freelance Device Audit — Jan 2021 – Present

- Assessed and restored 50+ smartphones for community users.

// EDUCATION

B.Sc. Computer Science — In progress

National Open University of Nigeria (NOUN)

// CERTIFICATIONS & TRAINING

Software Development · 3MTT, Federal Government of Nigeria — Completed Sept 2026

Youth in Agribusiness Programme (YAS) · IITA · apiary and yam seed production — Completed May 2025

Start Your Business (SYB) · International Labour Organization — Completed Aug 2025

Cybersecurity · Digital Training Academy (DTA) / Coursera — In progress

Electrical & Solar PV Installation and Maintenance · FME TVET Initiative, JOBITECH — In progress

// SKILLS

Frontend	JavaScript (ES6+), HTML5/CSS3, responsive design, Chart.js, Git/GitHub
Backend & Data	Node.js and Express (basic), Supabase/Postgres (basic), Excel, Google Sheets
Networking	RJ45 crimping (straight-through and crossover), LAN setup, network fault diagnosis
IT Support	Hardware and software troubleshooting, PC and mobile repair, Windows 10 and Linux (basic) setup, app rollout support
Hardware & Electrical	GSM device repair, PCB diagnostics, PC assembly, Solar PV installation and maintenance (in training)
Security	Cybersecurity fundamentals (in training with DTA and Coursera)
Tools	LAN tester, diagnostic utilities, Microsoft Office, Google Workspace
Other	Apiary (beekeeping), yam seed production, business planning (ILO SYB)

// LANGUAGES & INTERESTS

Languages: English, Hausa

Interests: Ethical hacking, cybersecurity, web development, data analysis, electrical engineering, agribusiness
